

The 6th International symposium on Negative Ions, Beams and Sources (NIBS'18)

Friday 07 September 2018

15th session (11:00-12:30)

-Conveners: Giuseppe Chitarin

time	[id] title	presenter
11:00	[3] Negative ion radio frequency surface plasma source with solenoidal magnetic field	Prof. DUDNIKOV, Vadim
11:30	[93] Plasma characterization of a Hall Effect Thruster for a Negative Ion Source concept	Dr SARTORI, Emanuele
12:00	[64] Negative Hydrogen ion density measurement in a permanent magnet based Helicon Ion source (HELEN-I) using cavity ring down spectroscopic technique	Mr MUKHOPADHYAY, Debrup
