

International Workshop on e⁺e⁻ collisions from Phi to Psi

Monday 25 February 2019 - Friday 01 March 2019

Budker INP

Scientific Programme

R measurements

Muon g-2 (experiment and theory)

Baryon Form Factors and proton radius

Spectroscopy of light and heavy quarks

Flavor (physics of K and D mesons)

Gamma-gamma physics

Tau-lepton physics

Machines and detectors

Symmetries (lepton flavor violation, lepton universality)

Dark sector
