ECL packer/unpacker

Alexander Bobrov

BINP SB RAS

- Unpacker module was developed by Vasiliy Shebalin
- We tested it with old cosmic run
- First version was committed in svn on June

- Packer module was developed by Vasiliy Shebalin
- We completed tests of both modules with the same data
- This program was committed with git yesterday

We estimated ECL event size from MC background data. Average events size 26 kB/ev, channel occupancy 43 %.

- Fist version of eclPacker/eclUnpaker is ready

- Test eclPacker/eclUnpaker with cosmic data
- Work with pedestal runs
